Ms. Karen S. Millar
College Computer Consultant
Browning Building
Campus

Dear Karen:

Thank you very much for presenting information pertaining to the computer facilities available through the College. Many of the students were not aware of what has been developed over the past year. Your talk stimulated much interest and has served a very useful purpose. You provided just enough background to make the topic interesting without losing the audience in endless details. You did a good job. Thanks again for your time and effort and willingness to step in at the last minute.

Sincerely,

A handwritten signature in cursive script, appearing to read "M. K. McCarter".
